# REGENCY CLASSIC™ C34

## Small Gas Stove

C34 shown with black legs, black door and safety screen.

### CLASSIC FIRE

The Regency Classic gas stoves provide the traditional look of a wood stove, but with the convenience of gas. These stoves do not require an existing chimney and can be installed with a direct vent to use outside air for combustion, allowing your home to stay warmer. This Classic series, like all Regency gas stoves, operates safely without electricity - keeping you warm with radiant heat.

## COMFORT CONTROLS

Fire Genie Remote

Proflame II remote

Wall Thermostat

Turn your fire on and off with our comfort remote controls. They can be used as a thermostat, allowing you to set and automatically maintain the desired temperature no matter where in the room you are sitting.

A Regency wall thermostat is a hands-free solution that helps you maintain a constant temperature in your home. Choose the programmable wall thermostat and set different temperatures throughout the day to match your lifestyle.

## MAXIMIZING COMFORT AND EFFICIENCY

Direct vent technology allows you to install a Regency stove almost anywhere in your home - no chimney is needed. From the top of the unit, simply vent your stove through an exterior wall. Direct vent units have a sealed combustion chamber; outside air is used for combustion resulting in a warmer home and improved indoor air quality.
